

SEMCO Outdoor Rotators

“F” Model Rotators

“T” Model Rotators

SEMCO outdoor rotators are equipped with a heavy-duty power train to provide higher torque to meet the demands of wind and weather conditions. Accessories such as louver covers, split plates, and companions plates are available to help your installation process.

See the figures on the installation page to help determine the type of rotator you need. Please call if you have questions on installation, load capacities, or if you need a custom designed rotator for special applications.
