

Indoor

T100-5A

Standard Features

- ◆ Welded Steel Frame
- ◆ Chain Drive
- ◆ Solid Construction
- ◆ Machined Surfaces
- ◆ Strong, Reliable Bearings
- ◆ Machined-Pressed Fit Collector
- ◆ High Torque Motor

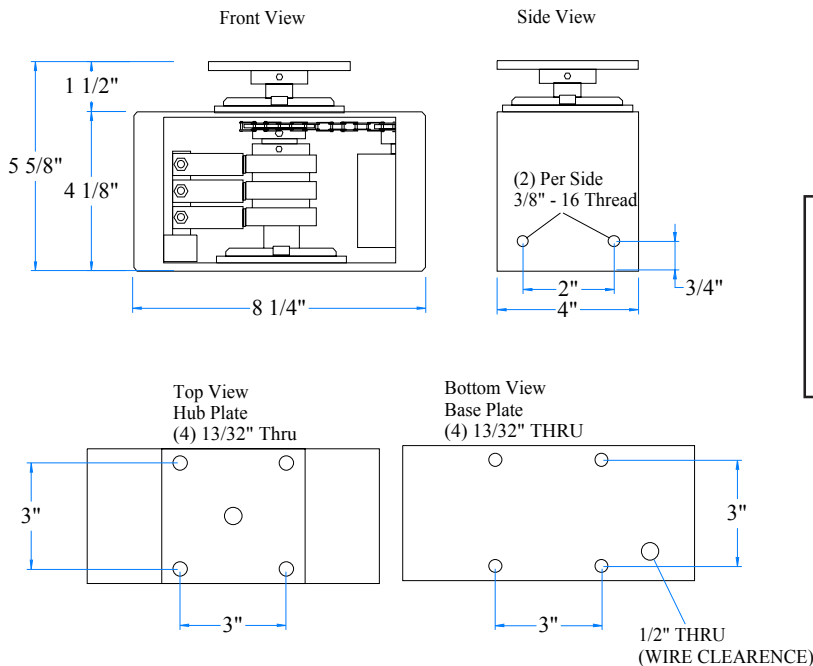

300 lb turning capacity

T100-5A

The T100-5A is a more compact version of our T100-5C that uses lower profile bearings and hub plate to lower the overall height. These rotators come equipped with a standard gear motor and the same size electrical collector/brush assembly used on other compact rotators.

Optional Features:

- ◆ Rotation Speeds from 1/2 to 10 RPM (2 RPM Standard Speed)
- ◆ Snap-ring for hanging applications
- ◆ 110V or 220V, 50 or 60 Cycle motor
- ◆ 0 to 8 collector ring/brush assemblies available in 20A or 30A

Dimensions shown are for rotator with (3) 30A collector rings. Add 3/4" to overall height for each additional collector ring
